Reduce your risks and protect your business

Cedar Rose Credit Risk Reports provide you with a comprehensive view of the financial health and potential credit risk of your clients, partners or suppliers.

With complete and accurate information on your business network, you can securely verify the creditworthiness and financial reliability of people and organisations that you do business with.

Our **CR Score** summary tool presents the information you need in a visual format using the latest AI technology for data analysis.

With instant access downloads and tailored reports delivered within 1-10 business days, you can protect your business and start making informed decisions confidently.

Minimize your risk

Forecast and plan more confidently

Avoid unpaid invoices and bad debt

Robust, reliable reporting tailored to your needs

Customised reports focused on what you want to know

Save time going through information you don't need. Cedar Rose tailored reports include only the data points relevant to your business needs.

Combine credit risk and compliance screening in one report to ensure you fulfil regulatory obligations for protection against potential financial and reputational losses.

No volume commitment so you stay in control of your budget

Access single reports when you need them with no minimum volume commitment.

If high volume reporting is what your business requires, you can benefit from Cedar Rose discounted pricing on higher volume commitments.

Real-Time Access

Integrate Cedar Rose reporting into your system efficiently, via API, to receive up-to-date reports in real-time.

Instant downloads are also available in DOC, XML and PDF format for sharing across your teams.

Automate your Credit Risk Management

The business landscape is constantly evolving. Our ongoing Credit Monitoring service alerts you instantly when the businesses you deal with change status.

Stay informed, make appropriate and timely decisions for your business with instant status updates on bankruptcy, liquidation, change of ownership, legal status, or reduction in financial standing.

Prompt payments are vital: Trade Rate Your Customer

Mitigate the risks of late payments with our robust and verified rating system. We invite anyone who finds their clients listed in our database to rate their payment risk and join our Trade Rate Scheme.

Benefit from the verified and collective experience of suppliers and vendors to avoid low-rated clients

Understand the reputation of potential clients in advance to avoid the cash flow issues that come with late payments

Secure prompt payments with the Trade Rate Your Customer scheme.

Tried and tested reports refined by credit experts

Comprehensive analysis using our proprietary algorithms

Competitive pricing and flexible contracts

Instant single report downloads via online credit card or Paypal payment in GBP, EUR or USD

Timely turnaround time of 1-10 business days for fully customised reports
