Instant Access to MENA and emerging markets Corporate Information with Cedar Rose: The Key to Successful Data Licensing for Understanding Your Business Partners

Our comprehensive data solution offers unrivaled coverage in the MENA Region and emerging markets, providing you with the information you need to drive **better decision-making, increase sales and lower cost and effort**. Our extensive database of accurate business information is designed to meet the unique needs of your business.

Start by delving into the corporate, operational, and financial profiles of companies with a Cedar Rose data license. You will have **access to information** such as comprehensive corporate profile, director and shareholder records, connections and affiliations between companies and individuals, entity hierarchy intelligence, and much more.

Our data is compiled with adherence to **reliability** and **strict compliance** with global data privacy laws and regulations.

Cedar Rose offers a data licensing solution that not only provides you with reliable, centralised and standardised data, but also, ensures a **seamless integration** into your systems. With the power of API (Application Programming Interface) or SFTP (Secure File Transfer Protocol) and our incremental monthly or quarterly updates, our data licensing solution opens the door to effortless **data access and manipulation**, empowering you to make data-driven decisions with ease.

KEY BENEFITS

1

Language accessibility

Language accessibility is a significant aspect taken into consideration by Cedar Rose. Language diversity is a challenge in the MENA region and that's we invest in translating and transliterating the data from local languages into English and Roman characters respectively.

2

Quality data

Quality data is the cornerstone of effective analysis and interpretation and technology a key element in providing high-quality data. Our advanced AI-modeling technology ensures data comprehensiveness, and our algorithm-driven regular quality checks conducted, automatically spot errors, data anomalies and inconsistencies (incorrect entries, contradiction, duplication, missing information) that are resolved by our data quality experts.

3

Integration

Integrating our data into your workflow and your processes. Benefit from the flexibility to manipulate and interrogate the data based on your needs, with incremental data updates via API or via SFTP according to your schedule.

4

Customisation

Customisation is key to ensuring the data you receive is suited to your business needs and meets your requirements. Save valuable time and effort by licensing data and specific data points are tailored to the exact countries or regions your business is interested in.

5

Reliability

Reliability is at the heart of our data solutions. We gather our data from reliable and verified sources, and we provide our clients with a date stamp and source grade for every data point. This gives you peace of mind knowing that you're working with robust, accurate data.

6

Efficiency

Efficiency is a critical factor in any data management process. With scheduled fast, reliable and secure data delivery, our solution streamlines your data management process and saves you time, resources and reduces the risk of human error. This allows you to focus on other important business tasks.

7

Scalability

Scalability is an important consideration for any business. With the ability to quickly scale up to accommodate changes in your data requirements, you can be confident that your data infrastructure will support your business growth and success.
