Global coverage in
250+ jurisdictions

456+ million
company records

Access expertise in
the **MENA region**

Request fresh
investigations and **due
diligence**

Take control of your credit risk process with accurate, timely, and insightful credit data on companies worldwide to make smarter decisions.

Expand globally with confidence by accessing insightful credit risk intelligence and relying on our specialised Middle East and Africa expertise.

Cedar Rose's Credit Risk Solutions leverage global data and automation to:

- ✓ Mitigate Risks
- ✓ Guarantee Compliance
- ✓ Accelerate Growth

Protect your business and grow with confidence

With our credit risk and reporting services, you can:

Manage credit risk

Identify potential risks and accurately assess creditworthiness of potential partners before doing business via our:

- Credit Reports
- CR Scores
- Credit Monitoring
- Payment Information / History

Analyse financial health

We analyse company financials (balance sheets, cash flow, etc.) to provide insights into financial health, performance trends, and potential risks.

Quickly assess credit worthiness

Experience the power of our **CR Scorecard** to evaluate a partner or supplier's creditworthiness across different risk levels.

Access comprehensive company profiles

Make smarter partnership and investment decisions with in-depth company profiles revealing financial health, ownership, leadership, along with industry affiliations.

Monitor and respond to changes

Receive timely alerts on changes to your partners' financials or creditworthiness, enabling quick responses to risks and opportunities.

Integrate and customise

Access credit information easily by integrating our API within your existing workflows.

Smarter, Faster Decisions with Reliable Credit Risk Data

Make informed credit decisions with our fast-reliable reports and proactive monitoring.

Our **tried and tested Credit Risk Reports** backed by **27+ years** of experience, provide a comprehensive view of your partners' and suppliers' financial health, empowering you to make informed decisions.

With complete and accurate data, you gain the ability to:

- Verify creditworthiness and reliability
- Visualise key insights with our CR score tool
- Request instant enquiries, fresh investigations, and enhanced due diligence on demand.

Let us help you manage your credit and compliance risk today
